**DETAILED ACTION**

***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:

The present invention is directed to an information storage medium for use in a recording and/or reproducing apparatus and an apparatus for reproducing motion picture data for different angles corresponding to a motion picture. Each independent claim identifies the uniquely distinct features "information on whether each of the entry points is an angle change point through which the motion picture is reproduced by the apparatus from one angle to another angle" The closest prior arts, Taira et al. (US 2003/0113096 A1), EP 0798722, EP 0847198, JP 11-341443, and European Office Action issued on February 1, 2010, in corresponding European Application No. 03777443.7, disclose the conventional information storage medium for use in a recording and/or reproducing apparatus and apparatus for reproducing motion picture data for different angles corresponding to a motion picture, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
